About Daniel Island

Daniel Island, a 4,000-acre island town in Charleston, S.C., recently was recognized as the nation's premier "smart growth" community by the National Association of Home Builders and *Builder* magazine. The island's distinctive traditional neighborhoods feature a broad mix of home styles and prices. A growing collection of amenities include not only the essential components of a community—schools, medical centers, boutiques, restaurants, office buildings, churches, and a modern supermarket—but also world-class golf, tennis, and soccer facilities. Access to hundreds of acres of parks, 23 miles of rivers and creeks, docks and boat ramps, bicycle and jogging paths, and a private in-town, country club provide Daniel Island residents with a myriad of recreational options.
